Study Committee Recommendation Presentation

As per their Side Letter of Agreement a joint committee formed of eight members - four from EJWEA (with at least one member each from Hiawatha, Fleming and Summit), and four from the District (with at least one administrative representative each from Hiawatha, Fleming and Summit) was charged to prove the possibility of scheduling team planning time opportunities for K-5 classroom teachers (teachers meeting with other teachers). This study committee presented their draft of the 2007-2008 Master Schedules for Essex Junction preK-5 Schools. These findings were presented a week ahead of our regular scheduled meeting as a courtesy to community members.

After the committee presentation, the board asked questions of their own regarding the plan and then allowed approximately one and a half hours for parents to articulate their concerns on these changes.

Meeting adjourned at 6:40PM

Respectfully submitted,
Charlee Day
Clerk of the Prudential Committee
