

### **High School Board Invites Citizen Representation on Study Committee**

The Essex Union #46 School Board has charged a committee to study the future of Essex High School's size and its relationship to educational quality. In an environment of declining student enrollment, this committee will examine strategies to promote the continuation of educational quality for Essex Junction and Essex Town students. Study elements will include reviews of demographic trends, cost modeling, and recommendations on an optimal student population ("size").

The committee is now forming, and will meet approximately one evening every three weeks. They are anticipated to complete its charge by the fall of this year.

The committee's charge can be found on the district's web site, [www.ccsuvt.org/ccsu/boards](http://www.ccsuvt.org/ccsu/boards). Citizens interested in being considered for committee membership are invited to inform Cindy Remy by e-mail [cremy@ccsuvt.org](mailto:cremy@ccsuvt.org) or by mail at CCSU, 21 New England Drive, Essex Junction, 05452 not later than Friday, February 1.
