

# ***CCSU K-12 Power Standards Math***

## **Math Power Standard #1: Numbers and Operations**

Students understand value and apply properties and operations of numbers. (Aligns with VT Standard 7.6)

## **Math Power Standard #2: Geometric Figures**

Students know and apply the attributes of geometric figures. (Aligns with VT Standard 7.7)

## **Math Power Standard #3: Units of Measure**

Students know and use units of measure. (Aligns with VT Standard 7.7)

## **Math Power Standard #4: Patterns, Equations, and Inequalities**

Students identify and extend patterns to express relationships between and among variables, and solve equations and inequalities. (Aligns with VT Standard 7.8)

## **Math Power Standard #5: Data**

Students represent, interpret, and predict using data. (Aligns with VT Standard 7.9)

## **Math Power Standard #6: Probability**

Students find probability theoretically and experimentally. (Aligns with VT Standard 7.9)

## **Math Power Standard #7: Problem Solving**

Students use a variety of approaches to solve problems and communicate solutions. (Aligns with VT Standard 7.10)
