

Adding a link on your Web page to a video you have created

1. Open Internet Explorer, navigate to the Westford site and log-in.
2. Go to your Web page
3. Click on the "Add Media" button.

4. Click on "Select Files," navigate to your video, and click on "open."
5. Click on the File URL button and copy the URL for your video and close that window.

Add media files from your computer

Choose files to upload

You are using the Flash uploader. Problems? Try the [Browser uploader](#) instead.

After a file has been uploaded, you can add titles and descriptions.

Description

Link URL

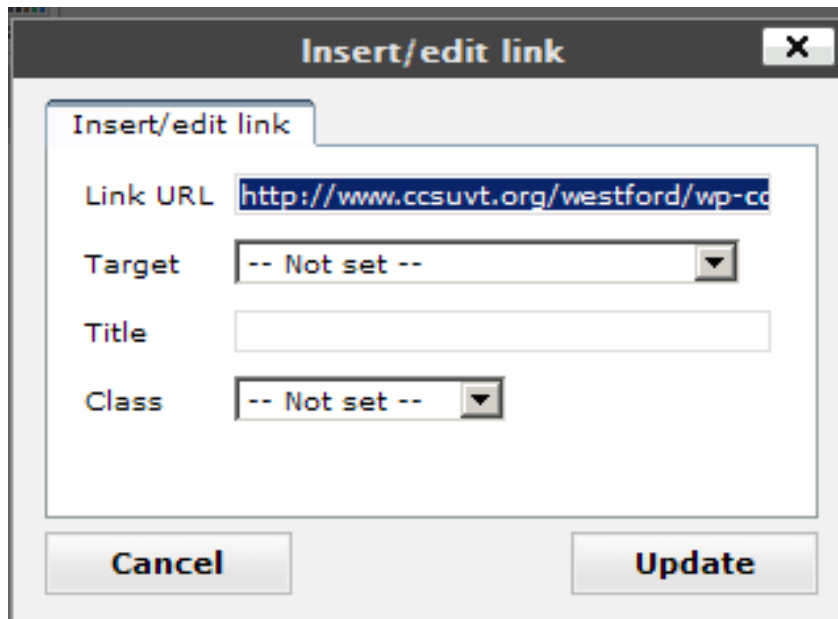

Enter a link URL or click above for presets.

[Delete](#)

6. Type in a message for your link, highlight that text and click on the link button.

7. Paste in the URL of the video and click "Update."

8. After you update your page, anyone visiting your page should be able to click on the link and have your video download and play.
