

How do you get to our catalog?

You can access the catalog from any of the webpages in our CCSU district. From Hiawatha's page, click on "Library Catalog" on the right hand side.

Or, type in www.destiny.ccsuvt.org

Type your search term into the box and click on **title, subject, author, or keyword**. The "Location" dropdown window gives you options for searching. Try Hiawatha's catalog first, but if you don't find what you need you can search the other schools and we can do an interlibrary loan for you.

A "bread crumbs" trail is created for you as you search. Use it to move back and forth. Do NOT use your browser's BACK button.

Creating a Resource List in Destiny

Why might you want to do this?

- *make a "books I want to read someday" list with your child

- *create a list of specific books you'd like us to pull (e.g. for 4 Winds or a Brownie/Boy Scout project)

Do I need to log in?

No—not to simply create and print a list.

How do I just quickly make a list of books?

Use the search screen and type in your subject, author, or title.

Click "add to this list" on any book that came up in your search that you want to have on your list.

When you've selected all you want, click on the "resource lists" tab at the left.

Click "View" next to My List. You should see the list you created. Click "printable" at the top, and it will print your list.
