

Mrs. Heikel's Class

Volume 1, Issue 1
August 2010

Welcome to Third Grade

I hope that you are having an interesting summer filled with new discoveries. My summer has included camping, biking, kayaking, gardening, and watching Norah, our 26-mo. old granddaughter, learn about her world. I've also taken a math class.

We will have much to share as we begin this learning adventure together this year. I want to know what you have been reading this summer and where you visited. (I went to Michigan).

Keep your eyes open to the trees and plants you see around you during these last days of summer. We will be beginning our science investigation with this unit.

Bring your questions, your wonderings, your expectations for third grade, and we will talk, write, and answer them together.

See you the end of the month!

Dates to Remember

- 8/23 New Student Orientation 4-5p.m.
- 8/31 Classroom Visitation 1-3p.m. (drop in)
- 9/1 First day of school
- 9/3 Completed forms due back at school
